B.E. CSE Program Accredited by NBA, New Delhi from 1-7-2018 to 30-6-
2021

PROBLEM STATEMENT :

Now days the people are afraid to ask the answer for the question with others because they think that how the other people would react to them. The one who ask the questions he may think whether he is able to get answer for his questions . To avoid this problem our Questioner App help the them to post their questions in the app and get their answer or solutions to their questions.

OBJECTIVES:

- This app allow the the user to post the questions and answer then in corresponding topic.
- This app allow the user to answer the questions.
- Logging in with their credentials and profile picture.
- Liking the post and commenting.

**Department of Computer Science and
Engineering**

B.E. CSE Program Accredited by NBA, New Delhi from 1-7-2018 to 30-6-2021

TECHNICAL DETAILS:

SOFTWARE CONFIGURATIONS:

- Operating System: Windows 10
- Workspace: Android Studio
- Android XML: Page layout using Android XML
- Android: Project has been developed on Android Platform
- Java: Code will be written using Java

HARDWARE CONFIGURATIONS:

- RAM: 8 GB
- Hard disk: MINIMUM 200 GB
- Processor: Intel i5 Processor

DESCRIPTION

This app enables users post their own questions in the corresponding topics and also answer questions if they can. They can view their posted questions and their posted answers. The users will be able to like the questions and answers posted

FUNCTIONALITIES:

1. Ask The Question :

To help the user to ask the question or post the question. If the user had doubt in any of the topic.

2. Answer The Question :

This app allow the user to post the answer for the questions which has been posted by other users.

3. View The Posted Questions And Answers:

This allow to view the questions and answers which had been posted by the users.

4. Like And Comment On Questions Posted:

User can like the answer or question posted by others and also they can comment on this .

5. Login With The User Credentials And Profile Pic :

User can login this app by login through their credentials and profile pic
